

Professor SUN Wei

College	College of Animal Science & Technology
Current Position	Professor
Types of Tutor	Doctoral Tutor
Language	Chinese/English
Education	Dr. Sun Wei received his Ph.D. degree in animal genetics and breeding at Yangzhou University in 2006. He was engaged in Post-doctoral research at the Beijing Institute of Animal Husbandry and Veterinary Medicine, Chinese Academy of Agricultural Sciences from 2008 to 2011, and he visited to the Commonwealth Science and Industries Research Organization (CSIRO) of Australia as a visiting scholar from 2009 to 2010.
Research Interests	<ol style="list-style-type: none">1. Evaluation, Protection, Utilization and Development of Genetic Resources of Sheep(Goat) Breeds2. Molecular Markers and Cultivation of New Strain (Breed) of Sheep (Goat)3. Sheep (Goat) (Epi-) Genetics and Functional Genomics
Selected Publications	<ol style="list-style-type: none">1. Lv X, Gao W, Jin C, et al: Preliminary study on microR-148a and microR-10a in dermal papilla cells of Hu sheep. BMC Genetics 2019, 20(1):702. Lv X, Gao W, Jin C, et al: Divergently expressed RNA identification and interaction prediction of long non-coding RNA and mRNA involved in Hu sheep hair follicle. Scientific Reports 2019,9(1):7283.3. Jin C, Bao J, Wang Y, et al: Changes in long non-coding RNA expression profiles related to the antagonistic effects of Escherichia coli F17 on lamb spleens. Scientific Reports 2018, 8 (1):16514.
