

Professor CHEN Caikou

College	College of Information Engineering (College of Artificial Intelligence)
Current Position	Professor
Types of Tutor	Master Tutor
Language	Chinese/English
Education	1987.9-1991.6, Management Information System, Hangzhou Institute of Commerce. B.S. 1997.9-2000.3, Computer Application, Southeast University. M.A. 2001.9-2004.7, Pattern Recognition and Intelligence System, Nanjing University of Science and Technology. Ph.D.
Research Interests	Theory and Application of Pattern Recognition, Machine Learning, Computer Vision, Deep Learning
Selected Publications	1. Two-dimensional discriminant transform based on scatter difference criterion for face recognition, Lecture Notes in Computer Science, 2006, 4222: 683-686. (SCI) 2. Discriminant transform based on scatter difference criterion in hidden space, Lecture Notes in Computer Science, 2006, 4153: 144-151. (SCI) 3. A modified large margin classifier in hidden space for face recognition Lecture Notes in Computer Science, 2006, 4153: 144-151. (SCI) 4. Hidden space-based nonlinear discriminant feature extraction method, INTERNATIONAL JOURNAL OF COMPUTER MATHEMATICS, 2007, 84(9): 1299-1308. (SCI) 5. Facial feature extraction method based on coefficients of variances, JOURNAL OF COMPUTER SCIENCE AND TECHNOLOGY, 2007, 22(4): 626-632. (SCI)
