

Lecturer HU Zenglei

College	College of Veterinary Medicine
Current Position	Lecturer
Types of Tutor	Master Tutor
Language	Chinese/English
Education	Ph.D. in Agricultural Science
Research Interests	Preventive Veterinary Medicine and Zoonosis
Selected Publications	<ol style="list-style-type: none">1. Zenglei Hu, Han Gu, Jiao Hu, Shunlin Hu, Xiaoquan Wang, Xiaowen Liu, Xinan Jiao and Xiufan Liu. Quantitative proteomics identify an association between extracellular matrix degradation and immunopathology of genotype VII Newcastle disease virus in the spleen in chickens. <i>Journal of Proteomics</i>, 2018: 201-212.2. Zenglei Hu, Xiaowen Liu, Xinan Jiao and Xiufan Liu. Newcastle disease virus (NDV) recombinant expressing the hemagglutinin of H7N9 avian influenza virus protects chickens against NDV and highly pathogenic avian influenza A (H7N9) virus challenges. <i>Vaccine</i>, 2017: 6585-6590.3. Zenglei Hu, Jiao Hu, Shunlin Hu, Qingqing Song, Pingyun Ding, Jie Zhu, Xiaowen Liu, Xiaoquan Wang and Xiufan Liu. High levels of virus replication and an intense inflammatory response contribute to the severe pathology in lymphoid tissues caused by Newcastle disease virus genotype VIIId. <i>Archives of Virology</i>, 2015, 160(3): 639-648.
